

Integra Technology Consulting Recognized in Boston Business Journal's Second Annual Pacesetters Award

Boston, MA – April 18, 2008 – For the second consecutive year, the Boston Business Journal (BBJ) named Integra Technology Consulting as one of the region's fastest-growing private companies in its second annual Pacesetters awards. The honor recognizes the company's skill in managing a rapidly growing company, showing robust revenues and creating business strategies that led to success in a competitive business environment.

Waltham-based Integra was the 11th fastest growing company on the Pacesetters list based on information gathered and assessed by the BBJ that detailed the company's performance from 2004 to 2007. On the 2007 Pacesetters list, Integra ranked 19th.

"We are proud of our success and growth," said founder and CEO David Teplow, "This recognition is most gratifying and I am most grateful to the outstanding people I work with who are responsible for all we've accomplished."

"We are very excited to kick off the Pacesetters this year," said George Donnelly, editor of the BBJ. "This award acknowledges those private companies that skillfully navigate a competitive regional and national marketplace and are growing quickly to be leaders in their field."

"Pacesetters was created because it's important to raise the profiles of rapidly growing companies," said BBJ Publisher Michael Olivieri. "This will help give guidance to the business community as a whole as to what makes a company successful and who they should be seeking out as potential partners."

The Pacesetters list was determined by survey information gathered and analyzed by the BBJ from private companies throughout the Greater Boston region. Based on the information provided, 60 companies were selected on their revenue growth between 2004 and 2007, which had to exceed at least \$1 million as of 2004.
