INTEGRA TECHNOLOGY CONSULTING IS AN ORACLE GOLD PARTNER

Waltham, Mass. – February 1, 2010 – Integra Technology Consulting, a full service systems integrator specializing in Oracle's Technology, Middleware, CRM and Business Intelligence solutions, has joined the newly revamped Oracle® PartnerNetwork as a Gold Partner. This continues a 26-year relationship, which began in 1986 when Integra's predecessor, Database Technologies, was founded as the first consulting firm on the East Coast to focus on Oracle solutions. With this announcement, Integra retains its long-standing partnership with Oracle and solidifies its enduring reputation for deep and authoritative expertise in Oracle's database, development platform and application suite.

"This Gold Partner status represents an assurance that Integra consultants have the business, functional and technical skills needed to implement or upgrade Oracle Database Technologies, Applications and Business Intelligence solutions. This, combined with our industry expertise, allows Integra to become powerful partners with our clients," said Doug Catalano, Managing Partner at Integra.

Dan Scheib, VP of Alliances, Commercial Applications at Oracle said, "Integra has been a strong supporter of Oracle in the marketplace, providing quality services to our mutual customers on both the Technology and Applications side of our business. We are very pleased to see this formalized in the Gold Partner relationship."

ABOUT THE ORACLE PARTNERNETWORK

Oracle works closely with an array of service firms to match quality partner capabilities with your business objectives. Oracle's certified partners can help you extend the value of your IT projects, adding proficiency to your team of Oracle experts, or providing unique services that enhance your experience with Oracle technology. Oracle and its partners work together to address your pressing business challenges with industry-leading solutions and service.
